How we cheat and teach

Our frustrations with LMS

Concessions to the future

Recommended next steps

It seems to break IT- & Admin-Peoples' heart to give away rights.
Power & permissions to the people !

LMS licence policies are often costly, and restrictive

Web is Freemium: We can have it all !

Unavailable – not best of breed – outdated – little teaching material

Task-Technology Fit & Tech-Fitness ?

Barriers: Login hurdles, unlinkable content, anti cross-boundary

Walled Gardens instead of Openness

Content silos keep up barriers to interaction and connection,
collective intelligence, network & viral effects – and to self-marketing
Walled Gardens instead of Openness

Pro and Con Arguments heard - then lets start the:
Open Discussion

Concessions to the future

Recommended next steps

A close-up photograph of two boxers in a ring. The boxer on the left is a Black man with a shaved head, wearing red boxing gloves. The boxer on the right is a white man with a shaved head, also wearing red boxing gloves. They are in a physical struggle, with the white boxer's arm extended towards the Black boxer's face. The background is dark and out of focus, showing some lights.

No !

It is NOT about
Either LMS or Social Platform

Creating something new and letting it mature

Next Generation LMS

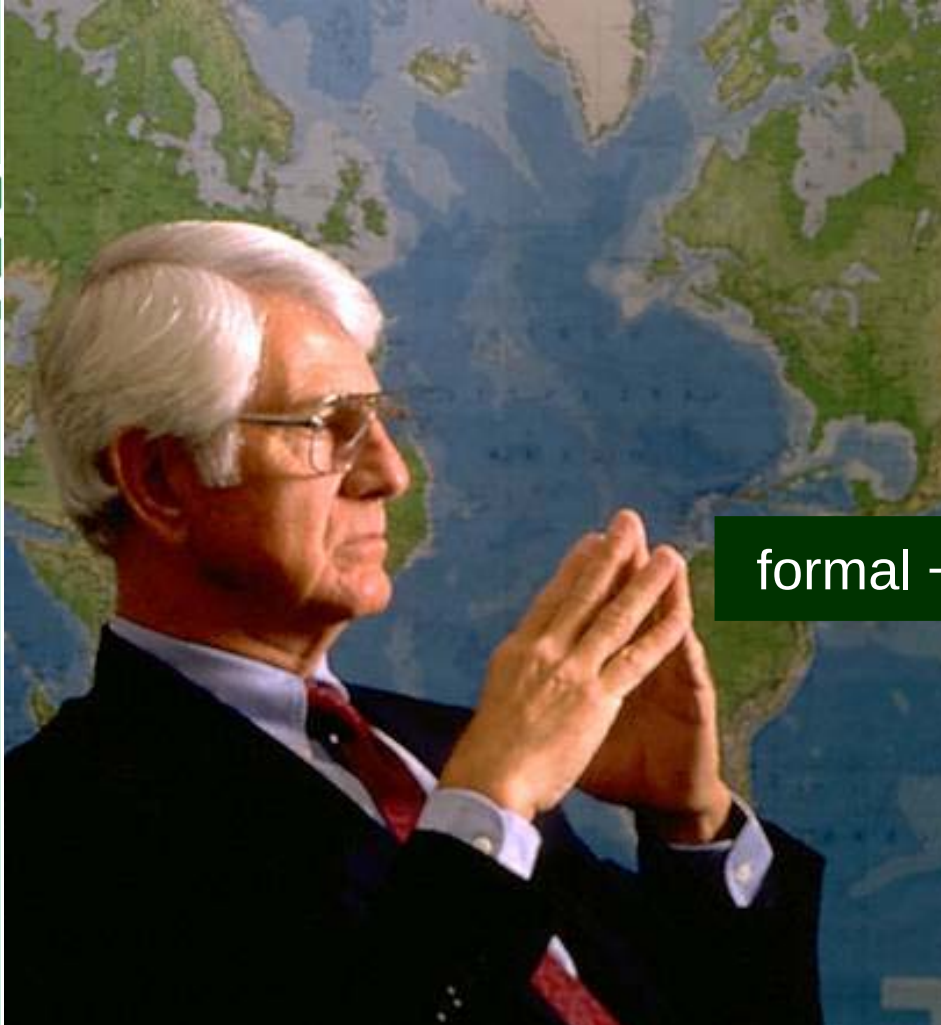

Agenda

How we cheat and teach

Our frustrations with LMS

Concessions to the future

Recommended next steps

formal + open

Strategy for LMS operations, and the majority of end-users:
Gradual evolution to 2.0-ness

Ein Mädchen

kann warten,
bis der Richtige
kommt.

Aber bis dahin
kann sie trotzdem
eine wundervolle Zeit
mit all den Falschen haben.

Strategy for innovators and early adopters:

Don't wait for LMS perfect

Have fun in your learning journey with all the „wrong“ Web-tools
