What is Note Lab?

(P)KM Meets Academia

At [[notelab]], we provide teachers, researchers and students with empirically based strategies to organise their digital content more efficiently, write smart notes, develop ideas and network them with each other.

<https://notelab.hypotheses.org>

What is Teaching-related Knowledge Management (TKM)?

TKM contains:

Identifying

Creating

(further) Developing

Storing

Disseminating among others

Scientific Knowledge

Notes. Notes? Notes!

Students keep loads of PDFs
and .docx Files in a few folders...

...as they graduate and switch sides,
they keep this practice...

...and every bit of information stays
in its own drawer.

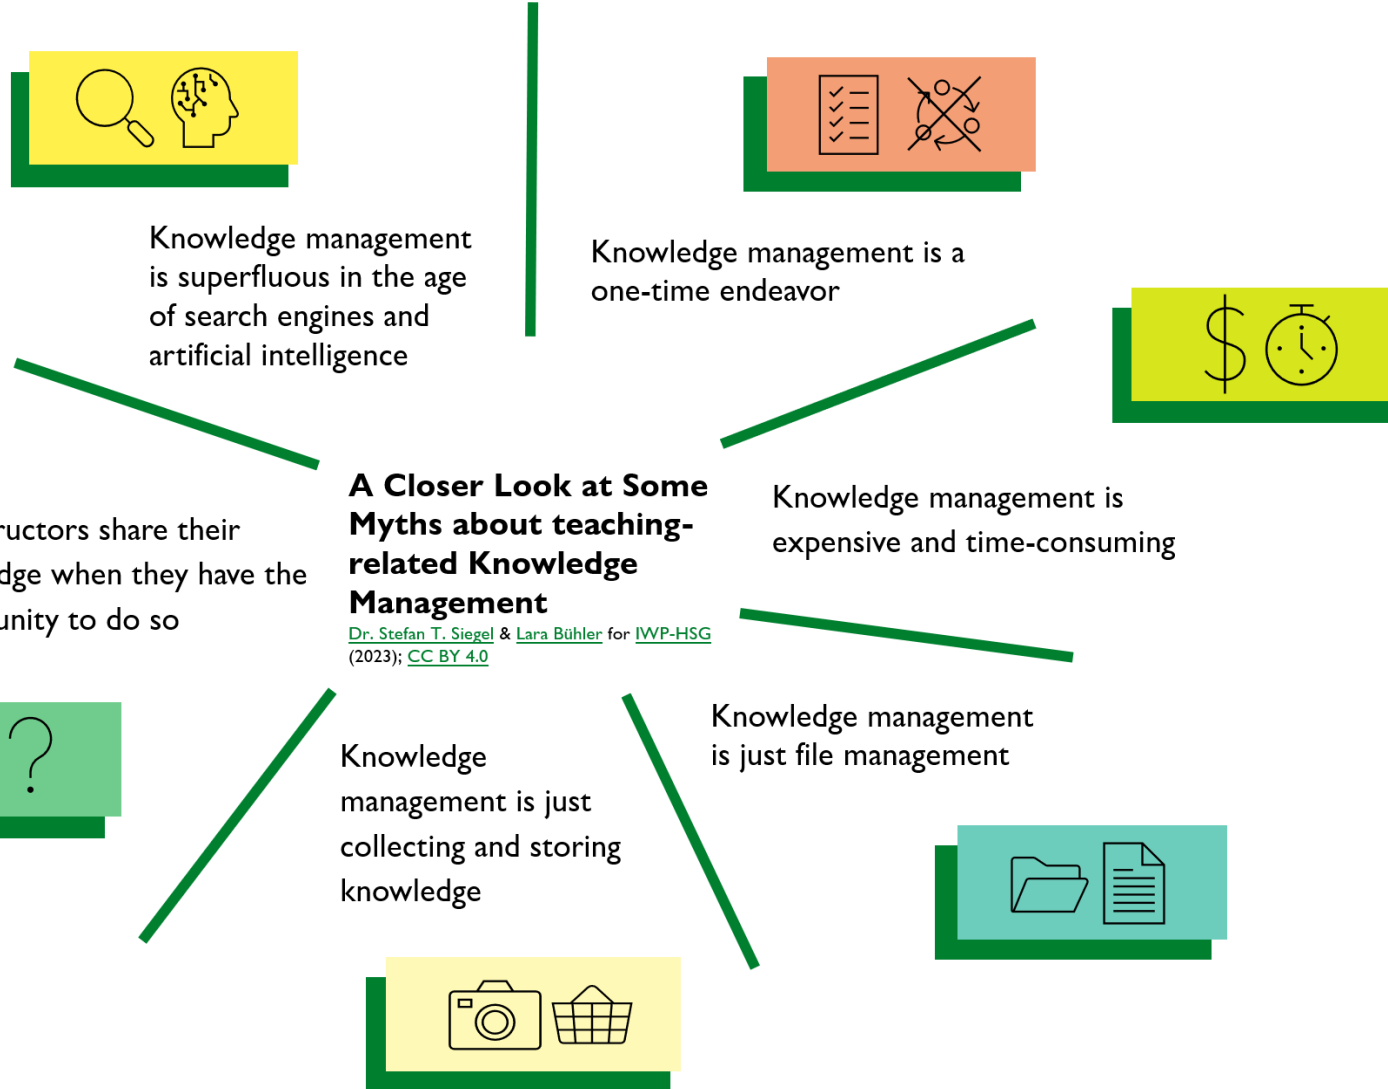

Some Common (Potential) Myths on TKM

Created by Simon Child
from the Noun Project

Created by Nithinan Tatal

Created by The Chichans
from Noun Project

Three Selected Myths on TKM

"KM is dead. I can simply use Google or ChatGPT!"

"I don't have time for that!"

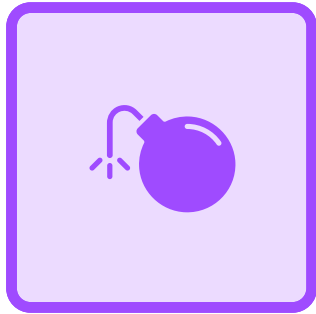

"The more I save, the more I know!"

Myth:

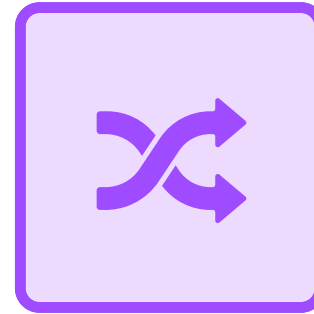

"KM is dead. I can simply use Google or ChatGPT!"

The Problem

The Consequences

What Works Instead

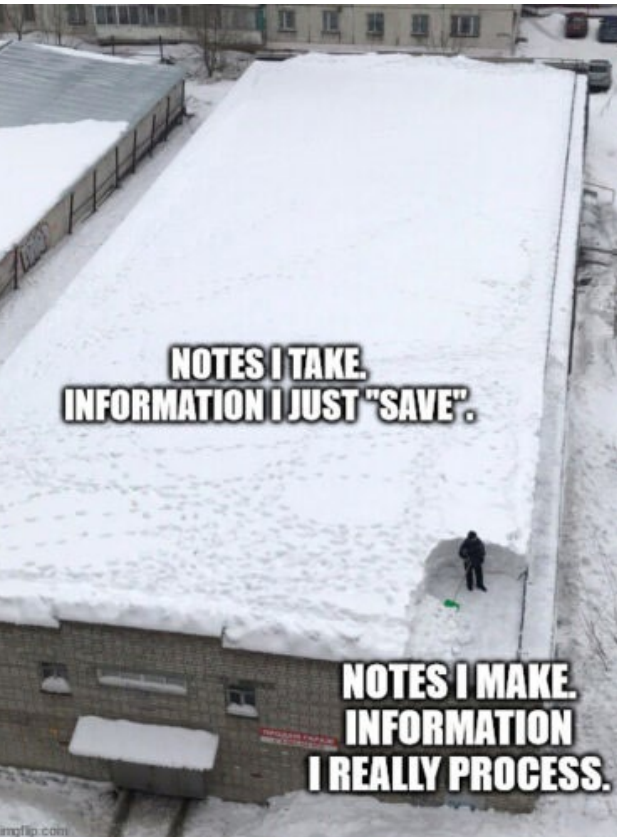

The True Core

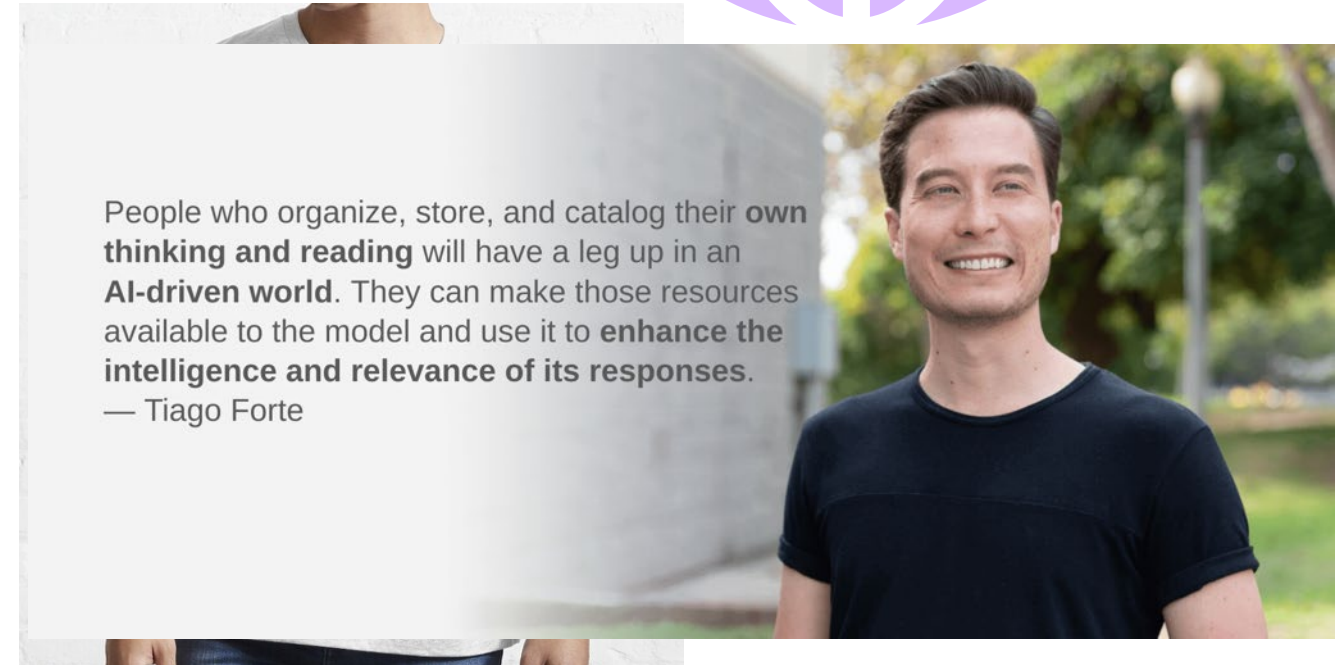

(e.g., Christodoulou, 2014; Giebl et al., 2022; Nakash & Bouhnik, 2021)

Myth:

"KM is dead. I can simply use Google or ChatGPT!"

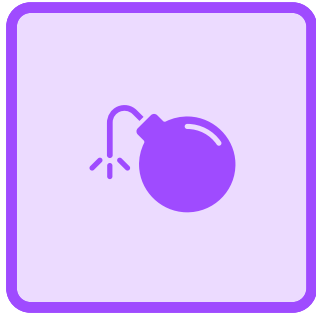

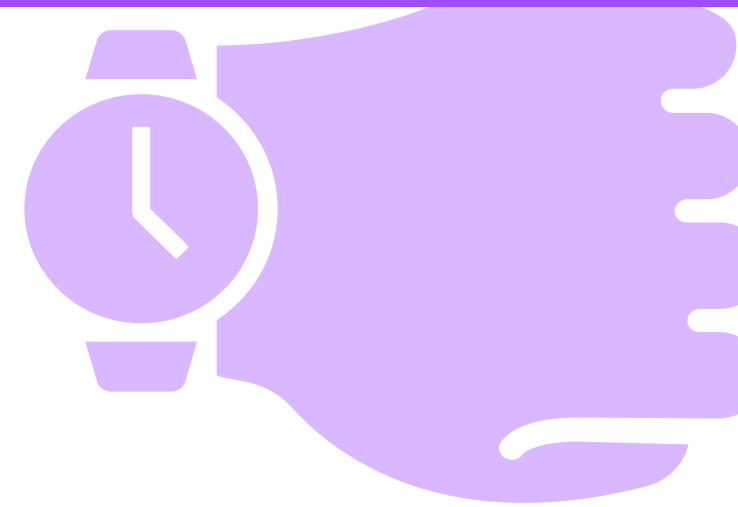

The Consequences

(e.g., Christodoulou, 2014; Giebl et al., 2022; Nakash & Bouhnik, 2021)

Myth:

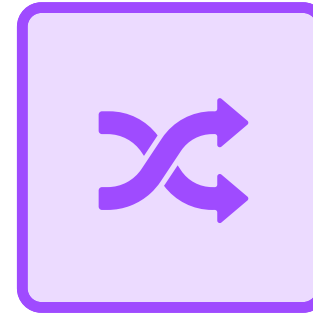

"I don't have time for that!"

The Problem

The Consequences

What Works Instead

The True Core

(e.g., Adams et al., 2021; Tietze, 20213; Renkl et al., 1996; Schwartz, 2016)

EITHER IT IS A MYTH OR A FACT

ONLY A SITH DEALS IN ABSOLUTES!

**That's
us.**

A Solution

Debunk Myths!

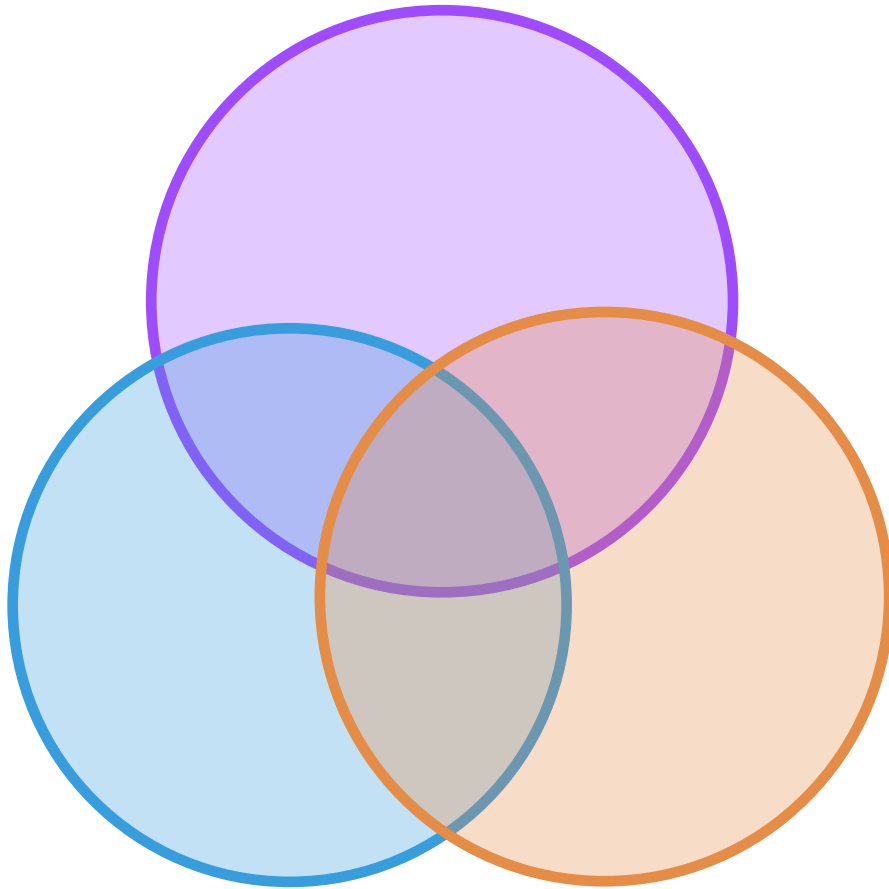

Look for the best available evidence.

Use these insights for Teaching-related KM.

Our Mission at Note Lab

Developing Ideas Through Evidence-Informed Note-Making

Develop Ideas

Share Knowledge:

Publishing blog posts and journal articles

Giving talks at academic conferences

Giving workshops for students and teachers

Join us Uncovering Even More Myths!
